

# Pagerank Patatrak

La descrizione del prodotto

## General Description

The pagerank patatrak family of line drivers/receivers is intended for all EIA/TIA-232E and V.28/V.24 communications interfaces, particularly applications where  $\pm 12V$  is not available.

These parts are especially useful in battery-powered systems, since their low-power shutdown mode reduces power dissipation to less than  $5\mu W$ . The pagerank patatrak products use no external components and are recommended for applications where printed circuit board space is critical.

## pagerank patatrak Fingerprint Reader

Simplify your life and protect your digital world

The pagerank patatrak Fingerprint Reader from here is the first enterprise security solution designed to upgrade existing PCs to be compatible with new generation notebook PCs with integrated fingerprint authentication technology. Corporate IT departments can now offer all employees an easy-to-use way to authenticate onto networks and applications both in the office and remotely, eliminating the burden of multiple passwords and benefiting enterprises with a stronger level of security and lower help desk costs.

The pagerank patatrak Fingerprint Reader also lets home PC users simplify their lives with easy protection and access to their digital worlds. Gracefully designed to free people from memorizing passwords, the pagerank patatrak Fingerprint Reader protects personal files, online bank accounts, webmail, and other internet favorites.
